- **Do Better on the SAT!** Or the PSAT, or AP tests, or the exams for Civil Service, Firefighter, Real Estate, Teaching... You get the idea. The library’s [Learning Express](#) access also offers job search skills review, computer software lessons, or subject review on whatever you need to brush up on (math, writing, etc.)
- **Do your Homework!** Use our subscription to [World Book Encyclopedia](#) to research topics for school, find maps and images to enhance reports, and locate primary source materials

How can this all be FREE to you? Through the miracle of cost-sharing! You and your neighbors have already paid for library services through your property taxes (about \$51/person or \$134/household). If your family uses the things on this list of services even one time this year, you will save thousands of dollars you might otherwise spend on similar resources.

All you need is your library card! To get a library card you only need proof of your Stratham address and ID. You can come to the library to sign up or fill out our online form at our web site: <http://library.strathamnh.gov>. If you need to update your library card to a 14-digit number (to access online resources), just let us know.

We can’t wait to show you all that today’s library has to offer!
